Secretary of the Commission December 9, 1980
U.S. Nuclear Regulatory Commission
Washington D.C. 20555
Attn: Docketing & Service

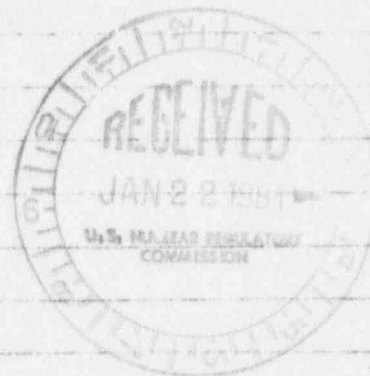

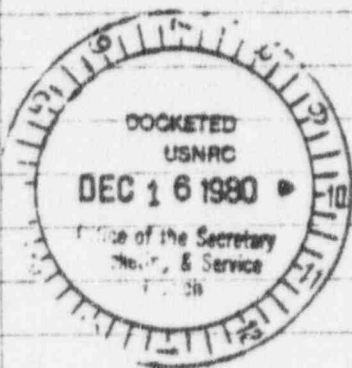

DOCKET NUMBER PR-30, 32, 70, 150
PROPOSED RULE (45 FR 70874)
SMELTED ALLOYS

To Whom It May Concern:

I have recently learned of
your plan to put decontaminated radio-
active metals in consumer products.

Is there a method to your
madness?!! Radiation is so very dangerous,
especially in consumer products. I
strongly suggest you reconsider your
outrageous plan which is a serious
threat to society.

Sincerely
Ms. Ann Sheridan
