Dear Sir:

The NRC was notified of a potentially reportable deficiency in Reference (A), an Interim Report was transmitted by Reference (B), and Time Extensions were requested in References (C), (D), and (E). At that time it was estimated that a Final Report would be available by May 15, 1985.

The ANPP has completed the evaluation and the corrective action necessary to enable the Units 1 and 2 Terry Turbines to meet the Project's seismic qualification requirements.

ANPP is currently compiling the information for the Final Report and expects to submit the Report by June 14, 1985.

Very truly yours,
