Dear Mr. Collins:

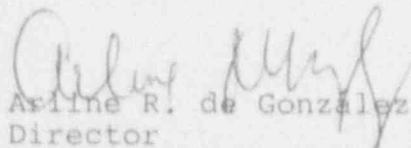

On August 12, 1992 we requested your office to add Mr. Santiago Gómez Figueroa as authorized user on our license no. 52-18221-01 and to perform leak tests.

We understand that by this procedure the radiation safety officer and user Mrs. Nimia E. Irizarry was going to be deleted from the license.

We are therefore requesting that Mrs. Nimia E. Irizarry be detected as officer and user.

We also are requesting to name Mrs. Arline R. de González as the Radiation Safety Officer on our request from amendment according to the phone call between Mr. Héctor Bermúdez or November 9, 1992 and Mr. Sigfredo Rojas Santana.

Sincerely yours,

Arline R. de González
