Dr. John Corrigan
 Indiana State University
 Terre Haute, Indiana 47809

Dear Dr. Corrigan:

I am pleased to respond to your letter of March 10, 1976, which has been referred to me for reply. In your letter you requested a copy of "the description of events" associated with the shutdown of Millstone Units 1 and 2 on February 12, 1976. The telephone conversation which you had with Mr. D. H. Jaffe of my staff on March 17, 1976 amplified your request to include the sequence of events relating to the shutdown of Millstone Units 1 and 2 in February 1976 and the Browns Ferry Fire of March 1975. These events are described in the enclosed reports issued by our Office of Inspection and Enforcement. I hope these reports are responsive to your questions regarding the Millstone and Browns Ferry facilities.

Sincerely,

George Lear, Chief
 Operating Reactors Branch #3
 Division of Operating Reactors

Enclosures:

1. Inspection Report
 No. 76-03 (Millstone)
2. Inspection Report 50-259/75-1
 and 50-260/75-1 (Browns Ferry)
