

JUN 03 1985

License No. 28-20818-01
Docket No. 030-22120
Control No. 03500

New Hampshire Yankee
Seabrook Station
ATTN: George S. Thomas
Vice President
P. O. Box 300
Seabrook, New Hampshire 03874

Gentlemen:

Please find enclosed your NRC material license.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation, or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

TELEPHONE CONVERSATION MEMORANDUM

Conversation with: Tom Thomson
Of (Firm): Nuclear Materials Safety Section Date: 5/17/85
631 Park Avenue
At (Address): King of Prussia, PA 19406 Time: _____
Subject: Irradiator Operator Supervisor Originated by: JMK

As stated in our May 7, 1985 reply, New Hampshire Yankee (NHY) will initially contract with the J. L. Shepard Company and Bartlett Nuclear, Inc. for formalized training for the Irradiator Operator Supervisor and designated personnel that are presently on staff at Seabrook Station who will be operating the large multi-source irradiator. All future training will be done by the Irradiator Operator Supervisor or his designated personnel.
