Mr. J. P. O'Reilly
Regional Administrator, Region II
U. S. Nuclear Regulatory Commission
101 Marietta Street, NW
Suite 3100
Atlanta, GA 30303

Dear Mr. O'Reilly:

I am working on the NRC sponsored project "Containment Leak Rate Testing" (Fin. No. B0489). The NRC project manager is E. G. Arndt (FTS 443-5860). One aspect of the work description requires the witnessing of at least one test each of Type A, B, and C tests. I have been informed of three upcoming tests in your region which I would like to witness: St. Lucie (October); Sequoyah (November); and Browns Ferry (December). If possible, I would like to arrive at least one day prior to the tests in order to observe the pre-test procedures. I have discussed this matter with Frank Jape and Herbert Whitener is also aware of my request. Also, I have sent Form 277 to the regional security office. This letter is a written request that the NRC obtain the appropriate clearances for me so that I may observe these tests.

Sincerely,

A handwritten signature in cursive script that reads "James R. Dougan".

James R. Dougan
