Attn: Bernard J. Snyder

Dear Mr. Snyder:

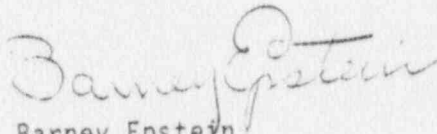

I am in the midst of reading the Environmental Impact Statement issued by the NRC in reference to the waste disposal at Three Mile Island.

I should like to comment on the Statement and feel I'll need more time to make an adequate evaluation. I therefore request that you extend the date for public commentary beyond October 6, 1980.

What is at stake here certainly requires that you allow a lengthier time for all to respond who so desire.

Thank you.

Yours truly,

Barney Epstein
