(45 FR 67018)

PR-20

336

January 20, 1981

Office of Enforcement and Inspection

Nuclear Regulatory Commission

631 Park Ave.

King of Prussia Pa 19046

Dear Sirs:

I understand that you have attempted to deregulate medical and research wastes to permit such wastes to be deposited in sewage systems and man holes. Maybe this will save expenditures involved, but, as Dr. Judith Johnson has explained, is hazardous to the health to a much greater extent than you seem to be willing to

Acknowledge. I protest.

Very sincerely

Marian Dockhorn
