

Hamburg, Pa.
 Feb. 28, 1981

Mr. Irwin H. Smith, Chairman,
 Atomic Safety & Licensing Board,
 25 North Court Street,
 Harrisburg, Pa. 17101

Dear Mr. Smith:

I am writing to you to urge the
 startup of the T.M.F. Unit 1 at
 Harrisburg.

Due to the shutdown of this undamaged
 unit as a customer of Met. Ed. I am
 paying excessive high bills for
 electricity.

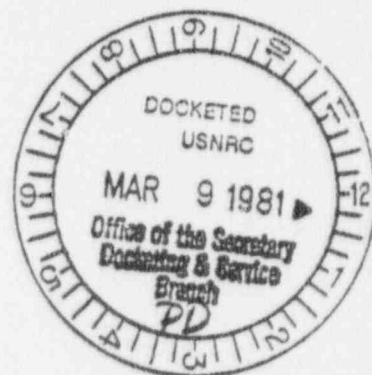

It seems to me that paying these
 high bills is so unnecessary since the
 undamaged unit sits there for two
 years and is not being used.

Since this unit was operating for
 years before the accident and there
 was no danger involved I don't
 think there will be any danger now.

Your cooperation in this matter
 will be greatly appreciated.

Very truly yours,
Luther S. Merkel
