INTRA-LABORATORY CORRESPONDENCE

OAK RIDGE NATIONAL LABORATORY

December 7, 1983

To: NRC Distribution

From: A. P. Malinauskas (4-0422) *af*

Subject: Organizational Change

Effective immediately, David M. Eissenberg is Program Manager of the Nuclear Regulatory Commission Division of Engineering Technology programs. Work in this area involves the Laboratory's Heavy-Section Steel Technology Project, Materials Requirements Project, Light Water Reactor Pressure Vessel Irradiation Project, Eddy-Current In-Service Inspection Project, and Equipment Degradation Monitoring Project. Also included are containment leak rate testing and ASME Code technical support activities. In this position, Dave will report to the Director, Nuclear Regulatory Commission Programs. He will also continue as Project Manager of the Equipment Degradation Monitoring Project. Dave replaces Franklin J. Homan, who is leaving the Program to become Head of the Radioactive Waste Management activities in the Operations Division.

We wish to take this opportunity to thank Frank for a job well done, to wish him every success in his new position, and to welcome Dave as the Manager of the Division of Engineering Technology programs.
