Mr. Richard H. Campbell, Project Manager

Department of Energy
Albuquerque Operations Office
P.O. Box 5400
Albuquerque, New Mexico 87115

Dear Mr. Campbell:

In response to your letter request of October 9, 1980, we have designated Mr. Dan E. Martin of our office to serve as the NRC representative on your Uranium Mill Tailings Remedial Actions Project Technology Working Group. All correspondence regarding Working Group matters should be addressed to Mr. Martin, Uranium Recovery Licensing Branch, Mail Stop SS-483, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Mr. Martin may also be reached on FTS at (301) 427-4115.

Due to resource limitations and previous commitments, we cannot, at this time, guarantee Mr. Martin's availability to participate in all Working Group meetings and functions. Mr. Martin, or an alternate NRC representative will participate, however, to the extent that such participation will not unduly interfere with the conduct of other important business in our office.

We appreciate the opportunity to participate in the Working Group and look forward to the success of that endeavor.

Sincerely,

Deputy Assistant Secretary

Dear Mr. Meyers:

We have reviewed the final draft version of the Annual Status Report on the Uranium Mill Tailings Remedial Action and concur pending resolution of the following minor discrepancy.

On page 37, third item, we recommend adding the word "proposed" before "Cooperative Agreements...". This change would provide consistency with the text on the same subject in the Executive Summary.

As you requested, we have transmitted this comment to Mr. D. Groelsema of your staff by telephone.

Sincerely,
