Ms. Mary Elizabeth Lambert, Chair
Duxbury Nuclear Advisory Committee
148 Washington Street
Duxbury, Massachusetts 02332

Dear Ms. Lambert:

I am responding to your letter of December 3, 1992. You requested the U.S. Nuclear Regulatory Commission (NRC) to update the status of the condensate pots in the reactor vessel water level indicating system at Pilgrim Nuclear Power Station (PNPS), and discuss operator training and instrumentation operability. The NRC staff is working with the Boards of Selectmen of Plymouth and Duxbury to arrange such an update.

I agree that open and frank communication is essential to maintain public confidence in the regulation and safe operation of nuclear plants. I hope you find this action responsive to your request.

Sincerely,
