Dear Mr. Smith,  
This is to inform you that we  
are totally against the restart of  
TMI-1, and that we favor a  
complete shutdown of the nuclear  
plant with an alternative being  
coal power.

Never again do we want to  
face that terror (and it isn't gone  
yet) that we felt Mar. 28, 1979.  
Never again do I want to see my  
daughter frantically cleaning pet  
dishes to save our animals when  
there was nothing we could do — that  
complete feeling of helplessness.

Sincerely,

Wayne, Jean and  
Robbie Fix
