

DOCKET NUMBER **50-289**
PROD. & UTIL. FAC.

Subject: Docket 50-289SP

TM1 - Unit #1

Middleboro, PA

Mrs. Richard C. Alden
Box 133, New Harbor, Maine 04554

March 4, 1981

Dear Mr. Ahearn:

With the concern in the nation over the rising cost of fuel and over our continued dependence on foreign energy sources it seems incredible that the undamaged Unit 1 at Three Mile Island has not been restarted.

I know that there is a very articulate group intent on obstructing the development and use of nuclear energy in every possible manner, but ~~I~~ believe it is time for affirmative action in the interest of the national economy and of the individuals whose lives are adversely affected by the underutilization of the nuclear energy system or by its being put in constant hazard of being outlawed.

Yours very truly,

Mary S. Alden
