Chairman Ivan Smith  
 Atomic Safety & Licensing Board  
 TMI-1 (Docket 50-289)  
 U.S. Nuclear Regulatory Commission  
 Washington, D.C. 20555

Dear Mr. Smith:

Please do not allow TMI-1 to  
 restart again. Atomic energy is not  
 completely safe and if an accident  
 does occur it can be catastrophic  
 plus the fact that there is no  
 safe disposal of wastes.

As a resident living only 10 miles  
 from TMI, I do not want TMI-1 to restart.  
 We are living with enough anxiety  
 in time and from TMI-2 which if  
 not cleaned up soon may be a  
 serious health hazard.

Sincerely,  
 Mrs. A. J. Bick
