

DOCKET NUMBER
EPOB & UTIL FAC. SE: 289 (Residual)

Chore

Feb. 23, 1981

Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sirs:

I wish to protect against
the reopening of the undamaged
part of the TMI facility until
the damage to the other part
has been repaired and the
waste removed.

I believe the people of the area,
and indeed all of us, have
enough problems on our plates
at this time without asking
for more.

Sincerely,

Elizabeth Shombert
