Dear Mr. O'Sullivan:

Your letter of February 23, 1981, to Chairman Ahearne, concerning public education and information for emergency planning around the Big Rock Nuclear Facility has been referred to me for response.

I have reviewed your letter of January 31, 1981 to Brian Grimes, of the NRC and to John McConnell, of the Federal Emergency Management Agency, as well as Brian Grimes' response to you dated March 9, 1981, and the FEMA response of February 20, 1981. I am in agreement with both of these responses and can assure you that your constructive comments will be seriously considered in our review of the public information pamphlet in question.

Sincerely,

/s/ D. Young
