Subject: [Non-DoD Source] Table 1 of the CoC

Good morning,

I wanted to inform you that I incorporated your comment about to be consistent on the Model Nos. descriptions in Table 1 of the CoC. Here is the revised table:

Table 1. Maximum Volume of Residual Liquid per Model No.

Model Nos.	Maximum Volume of Residual Liquid (gallons)
S5W Reactor Compartment Disposal Package	≤ 660
SSN-688 Reactor Compartment Disposal Package	≤ 1,200
NR-1 Reactor Compartment Disposal Package	≤ 90
S5G Reactor Compartment Disposal Package	≤ 1,200

Let me know if you have additional comments related to this table.

Thanks,

Norma Garcia Santos
