Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation Reporter
Washington, DC 20555

Subject: Post - TMI Requirements for the
Emergency Operations Facilities

Dear Mr. Eisenhut:

Your February 18, 1981 letter to all licensees of operating plants and holders of construction permits provided information on Item III A.1.2 of NUREG-0737 and requested confirmation that the implementation dates indicated in your Enclosure 1 would be met.

Pursuant to your implementation schedule, the design information requested will be provided in connection with the Limerick operating license application review process.

Sincerely,
