12. DESCRIPTION OF AMENDMENT/MODIFICATION

Whereas, Government issuance of security clearances for certain contractor/subcontractor personnel was delayed beyond the agreed-upon timeframe for such issuances; and,

Whereas, such delays necessitate a two-month time extension for all three contract phases heretofore not effected; and,

Whereas, such delays have caused the Contractor to perform contract tasks under phases I and II on an accelerated schedule; and,

Whereas, lack of total NRC participation in the analysis of the NRC Headquarters organization to define the information needed for the "Management Responsibility Guide" approach to define the functions performed by each safeguards-related position in such organization, has caused the Contractor to develop a work-around method of obtaining results for the project; and,

Whereas, the operation under an accelerated schedule and on a work-around basis of inferring informational needs and flows within the NRC Division of Operating Reactors, Office of Nuclear Reactor Regulation, represents two constructive change orders; and

Except as provided herein, all terms and conditions of the document referenced in block 8, as heretofore changed, remain unchanged and in full force and effect.
