

OFFICE OF THE
COMMISSIONER

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

Chen

October 11, 1984

MEMORANDUM FOR: Herzl Plaine
General Counsel

FROM: James K. Asselstine 

SUBJECT: SAN ONOFRE 1

I would appreciate it if you would answer the following questions:
Is the design basis earthquake (.5g) a part of or incorporated into
the San Onofre 1 license? Would allowing San Onofre 1 to restart
when the .5g requirement is not met for some safety systems be an
amendment of the San Onofre 1 license?

cc: Chairman Palladino
Commissioner Roberts
Commissioner Bernthal
