IN RESPONSE REFER  
TO FOIA-84-763

Dear Mr. Terpilak:

This is in further response to your letter dated September 22, 1984, in which you requested, pursuant to the Freedom of Information Act (FOIA), copies of nine categories of documents concerning International Nutronics, Inc.

The additional documents listed on the enclosed Appendix A (continued) are being placed in the Public Document Room (PDR), 1717 H Street, NW, Washington, DC, where they will be available for public inspection and copying. You may obtain access to these records by presenting a copy of this letter to the PDR Staff or by requesting PDR folder 84-763 under your name. There is no charge for inspecting records maintained in the PDR. We are enclosing a copy of a notice that provides charges and procedures for obtaining copies of records from the PDR.

Our processing of other documents is continuing, and we will communicate with you again upon completion of our review of the documents.

Sincerely,

A handwritten signature in cursive script, appearing to read "John Philpott for".

FREEDOM OF INFORMATION  
ACT REQUEST  
FOIA-84-763  
Rec'd 10-1-84

Dear Sir:

I have been retained as a Health Physics Consultant by the law firm of Moore, Clifford, Wolfe, Larson and Trutner of Oakland, California representing the Lexington Insurance Company concerning International Nutronics Inc. located in Dover, New Jersey.

I would like to request under the Freedom of Information Act (FOYIA) the following material.

- (1) All documents pertaining to the initial application for license as well as all the amendments pertaining to this license. (I understand the initial application was made in 1970 by Radiation Services Associates until the present September, 1984. (License #29-13848-01).
- (2) All documents pertaining to the initial application for license as well as all the amendments pertaining to this license by International Nutronics, Inc. from the transfer and sale of said facility until the present.
- (3) All documents such as inspection reports by the U.S. Nuclear Regulatory Commission as well as its predecessor the U.S. Atomic Energy Commission from the initial issuance of the license in 1970 until the present.
- (4) All documents such as enforcement actions, citations and any correspondence dealing with this license from its inception until the present time.
- (5) All documents such as reports and any correspondence that have been generated by the licensee RSA and/or INI from its inception until the present time.
- (6) All documents, reports and/or correspondence dealing with whole body bioassay counting techniques dealing with this licensed facility.
- (7) In summary, I am requesting the complete file on this licensed facility from its initial licensing phase to the present time with any other appropriate Federal regulatory action, correspondence, reports, citations as well as regulatory actions related to this facility.

- (8) In addition, I am also requesting documentation of any abnormal incident, accident situations that may have occurred at this facility from the inception of its operation (U.S. N.R.C. or licensure reports etc.) until the present.

I would also like to request a policy statement developed by the Nuclear Materials Safeguards Section (NMSS) which was issued as a directive and provided guidance to New York State with respect to radiation levels for unrestricted release of nuclear facilities.

I understand that under present FOYIA requirements as specified in 10CFR, Part 9, Section 9.8 that an appropriate fee will be charged for photocopying the material requested. Please proceed with this request and bill me for the material as required.

I would appreciate this material as soon as possible and would appreciate a confirmation of this request.

Thank you for your utmost cooperation and attention in this matter.

Sincerely,

*Michael S. Terpilak*
