

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

December 18, 1984

NOTE TO: Bob Erickson

FROM: Joe Bunting 

We are currently reviewing the report of DOE's Advisory Panel on Alternative Means of Financing and Managing Radioactive Waste Facilities, prepared in response to Section 303 of the Nuclear Waste Policy Act. Copies have been circulated to other NRC offices (see enclosed memoranda) and Fuel Cycle, but we now recognize that there could be safeguards concerns with the Panel's recommendations and request your assistance in reviewing the study as well.

Also enclosed is a review of the report recently prepared for us by Aerospace. Note that Aerospace refers to all of the alternative organization forms as "FEDCORP," whereas the Panel report uses the term in specific reference to a public corporation for managing the waste program.

I would appreciate any comments you may have by January 3. Thank you for your assistance.
