THE WHITE HOUSE

WASHINGTON

June 20, 1980

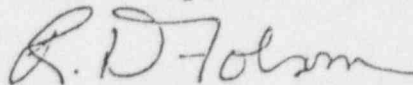

Dear Ms. Seed:

Thank you for presenting to Stu Eizenstat, through Fran Voorde, your views concerning Bailly Generating Station, Nuclear I, to be located about 12 miles northeast of Gary, Indiana. I apologize for not responding sooner.

I am sending a copy of your submission to the Nuclear Regulatory Commission for consideration. All safety considerations regarding the plant's site and design have been reviewed by the Commission.

We are delighted that you could attend the issues briefing at the White House, and I am glad to know of your interest and concern about nuclear safety and our energy problems. Rest assured that the safety of nuclear energy remains a priority in this Administration.

Sincerely,

R. D. Folsom
Assistant Director
Domestic Policy Staff
