Gentlemen:

This refers to your letter dated December 11, 1984, for amendment to Materials License 48-11805-02 to cover human use of byproduct material.

We received your check for \$40; however, an application fee of \$580 is required as specified in fee Category 7C and Footnote 1(d) of \$170.31 of revised 10 CFR 170, copy enclosed. Footnote 1(d) states, in part, that an application for amendment to a materials license that would...add a new fee category shall be accompanied by the prescribed application fee for the new category. Your request to include human use of radioisotopes will increase the scope of your licensed program to include fee Category 7C. Accordingly, payment of the additional \$540 should be made to the U.S. Nuclear Regulatory Commission and mailed to the attention of Cheryl Phillips at our Washington, D.C. address.

Your application will be processed by the Region III Licensing staff located at 799 Roosevelt Road, Glen Ellyn, Illinois 60137. The additional fee, however, is required prior to issuance of the amendment. When submitting the fee, please refer to CONTROL NUMBER 77955.

Sincerely,

Original Signed By
