Dear Mr. Frizzle:

Subject: Inspection No. 50-309/92-22

This letter refers to the safeguards inspection conducted by Mr. R. J. Albert of this office on November 30 -December 3, 1992, of activities authorized by NRC License No. DPR-36 and to the discussions of our findings held with Mr. G. D. Whittier and other members of your staff by Mr. Albert at the conclusion of this inspection.

Areas examined during this inspection are important to public health and safety and are described in the NRC Region I inspection report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

We found that your physical security program was directed toward public health and safety. Continued good management support for the program was evident. Within the scope of this inspection, no safety concerns or violations of regulatory requirements were observed.

No response to this letter is required. Your cooperation with us is appreciated.

Sincerely,
