Gentlemen:

We have completed the initial review of the Upgrade Rule Physical Protection Plan for your Energy Systems Group's Canoga Park Facility, which was transmitted by your letter of September 19, 1980.

Comments by the NRC staff concerning Parts One and Two of the Plan were discussed with members of your staff by Odell Smith of our Physical Security Licensing Branch and M. D. Schuster and Dennis Schaefer, Safeguards Branch of the NRC's Region V, during their visit to your facility on October 30 and 31, 1980. Members of the NRC's Licensing and Inspection and Enforcement staffs further commented upon these two parts of the Plan with your Dr. M. E. Remley during his visit at our Silver Spring, Maryland office on November 18-20, 1980. Those comments and the results of the various discussions are contained in Enclosure "A" of this letter.

A consolidated listing of comments by the NRC staff relative to Appendix I (Information Request Sheets - IRS's) of the Plan was not available at the time of the October 30-31 discussions. That listing has now been compiled and is contained in Enclosure "B" of this letter.

Of the 45 items discussed during the October 30-31 meeting, ten were unresolved, pending further evaluation and coordination on the part of both the NRC Staff and ESG. Some of these ten items refer to duplicate issues. Accordingly, there were approximately seven matters which were not resolved at that time. We have continued a dialogue between the NRC licensing staff and Dr. Remley; and expect to conduct whatever further meetings or discussions which may be necessary in order to resolve these matters in a timely fashion.

We have determined that the Physical Protection Plan transmitted by your letter of September 19, 1980 and Enclosures A and B to this letter contain information of a type specified in 10 CFR 2.790(d).
