

March 11, 1981

Dear Sir —  
I wish to register a protest against the construction of Bailey Nuclear I by NIPSCO in Porter County, Indiana.

The lines from the nuclear plant in Bridgman, Michigan, pass through northern Indiana a very few miles from this proposed plant carrying electricity to Illinois. Bridgman is not very many miles from the proposed plant — Why build another very expensive plant in a dangerous spot on a highly industrial steel mill area if it is not needed? NIPSCO's greed should not be more important than the welfare of the people.
