PROD. & UTIL. FAC.

Bruce J. Sawoschka
3757 Melton Rd. Box 88
Portage, IN 46368

Dear Sir :

My family and I are residents of Porter County, Indiana. We are appalled at the recent decision by the Nuclear Regulatory Commission which will permit a resumption of construction by the Northwest Indiana Public Service Company. We are well aware of unsafe conditions which Bailly would present to the citizens of northwest Indiana. To allow this plant to be constructed on short pilings is, in our humble opinion, sheer lunacy.

We are vehement in our conviction to voice protest and concern against the construction of NIPSCO's Bailly nuclear plant until the NRC enters upon a serious, comprehensive review of the situation here, and renders the only sane decision possible : the prohibition of a nuclear powered generating station in northwest Indiana. Thank you.

Sincerely,

Bruce J. Sawoschka
