

DOCKET NUMBER 30-369,370  
PROD. & UTIL. FAC.

March 18, 1981

Chairman Joseph Hendrie  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Hendrie:

I am writing to express my gratitude for the NRC licensing hearings on the McGuire Nuclear Station here in Charlotte, North Carolina. I hope they will be allowed to continue. It is well-known that the present administration favors the development of nuclear power, and that this favorable climate encourages electric utilities to put pressure on their representatives in Congress to in turn pressure the NRC to act in their interests. It is unfortunate that public health and safety, as it is affected by the construction and operation of nuclear power plants, has become a political football.

DSB  
5/10

I urge you to do everything in your power to see that the licensing
