Dear Mr. Maupin:

I enclose herewith a proposed stipulation which provides for treatment of "the disclosure issue" as agreed at the prehearing conference on February 11, 1974. I have signed it. If this meets with your approval, please sign it and send it to Mr. Rodgers. I suggest that if it meets with Mr. Rodgers' approval and he signs it, it should circulate as follows: to Mrs. Arnold, and then to Mr. Baliles, whom I would ask to file it with the ASLB and distribute a copy with all the signatures to each party.

Sincerely,

David E. Kartalia
Counsel for AE Regulatory Staff

STIPULATION

Each of the parties to this Stipulation is a party to the proceeding or proceedings whose docket numbers appear below such party's name at the end of this Stipulation.

At the prehearing conference held on February 11, 1974, Tr. 19, the North Anna Environmental Coalition proposed that, in the consolidated hearing on the fault zone issue scheduled to commence on March 20, 1974 ("the fault zone hearing"), the Atomic Safety and Licensing Board consider the issue whether the construction permits for the North Anna Power Station should be suspended or revoked for material false statements in required submissions to the Atomic Energy Commission pertaining to the North Anna Power Station site ("the disclosure issue"). The parties hereby agree as follows:

1. The disclosure issue shall not be considered in the fault zone hearing.

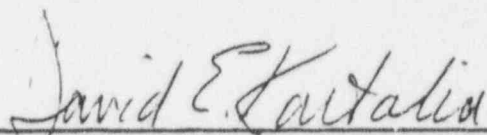

2. The AEC Regulatory Staff ("the Staff") will, as soon as practicable, complete its investigation of the disclosure issue and provide written notification to the Coalition of the result of such investigation. Within thirty days after the date of such notification, the Coalition may file, with the Commission, a request for a separate public hearing on the disclosure issue. Any such request made by the Coalition will be supported by the Virginia Electric and Power Company and by the Staff; however, such support of the Coalition's request for a separate hearing shall be without prejudice to any position respecting the merits of the disclosure issue that either the Virginia Electric and Power Company or the Staff may take in any such separate hearing.
