Subject: Clarification of item #15 Page 1 of 2 Bi-weekly wipes.

Gentlemen:

This letter is being sent to clarify the statement of page 1 of 2 on our application governing License # 20-13270-01, under Item #15 "Radiation Protection Program."

We stated that ~~be~~^{bi}-weekly wipes are taken of restricted areas by our RA consultant. We would like to further clarify this statement, by bi-weekly we mean every other week, with the exception of the following facility shut downs.

last week of July
first week of August
last week of Dec - Jan 2nd

With the above shutdowns considered, the wipe frequency would be approx. 24 times per year.

If you have any further questions, Please do not hesitate to contact me.

Thank You

John Latassa
