U. S. Nuclear Regulatory Commission
Attn: Director of Nuclear Materials
Safety and Safeguards
1717 H Street N.W.
Washington, D. C. 20555

Gentlemen:

Presently we hold NRC License #42-09073-02 and we are applying for a general license for shipment in DOT specification containers, in packages approved for use by another person, and in packages approved by a foreign national competent authority.

The names and license or certificate numbers of the persons to whom the package approvals have been issued, and the package identification numbers specified in the package approvals are:

1. Name:

- a. Technical Operations, Inc.
Radiation Products Division
Northwest Industrial Park
Burlington, Massachusetts 01803
- b. Gamma Industries
P. O. Box 2543
Baton, Rouge, Louisiana 70821

2. Certificate number(s):

- a. 9032, 9033, and 9039
- b. 6717

3. Package identification number(s):

- a. USA/9032/B, USA/9033/B, and USA/9039/B
- b. USA/6717/B

If there are any questions concerning this application, please feel free to contact us.

Sincerely,

TENNESSEE GAS PIPELINE

David L. Culbertson
Quality Assurance Supervisor
and Radiation Safety Officer
