

May 13, 1985

John D. Kinneman, Chief
Nuclear Materials Safety Section A
Division of Radiation Safety and Safeguards
Nuclear Regulatory Commission
637 Park Avenue
King of Prussia, Pennsylvania 19406

Docket Nos. 30-20684
30-20703

License Nos. 37-20658-01
37-20658-02G

Subject: Inspection No. 85-01

Dear Mr. Kinneman:

In reply to the Notice of Violation and letter from you dated May 2, 1985, please note the following:

- 1) No radioisotope sources have been installed since the inspection.
- 2) TLD ring service from R.S. Landauer, Jr. & Co. has commenced.
- 3) TLD rings will be worn by all personnel engaged in source installation.

This violation was a result of a misunderstanding on my part of a telephone conversation I had with Ms. Jenny Johansen of the Region I Office prior to our obtaining our license. It was my understanding that workers other than me should wear TLD rings, but I neglected to make that clear in our Radiation Safety Manual. From this date on, TLD ring badges will be worn by me and anyone else who in the future may be authorized to install sources.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Delbert W. Devins".
