Nuclear Regulatory Commission  
Material Licensing Branch  
Washington, D.C. 20555

Dear Sir:

This is in response to your recent letter advising us of License 21-05199-03 expiration on August 31, 1984.

We have reviewed our license and find that it represents our current and anticipated needs. A review of NCR regulations indicate that they are appropriately covered by our license.

The documents by date which have been previously submitted for NRC License 21-05199-03 and reflect our radiological program are:

March 26, 1979  
May 22, 1979  
June 7, 1979  
February 28, 1980  
March 26, 1982  
August 30, 1982

A state agency should be exempt from license fee per the United States Nuclear Regulatory Commission Rules and Regulations Part 170.11 paragraph A-9.

We wish to continue to operate under our current license. If further information concerning application renewal is needed please contact Dr. L.J. Charamella at (517) 373-1298 or 373-1268.
