FREEDOM OF INFORMATION
ACT REQUEST

FOIA-85-79
Rec'd 2-5-85

Dear Ms Robinson:

In accordance with the provisions of the federal Freedom of Information act, I am hereby requesting several documents pertaining to a radioactive waste storage and incineration facility in Southboro, Mass. The license to operate the facility is held by the President and Fellows of Harvard College, Harvard University, Cambridge, Mass. 02138. According to our records, the license number is 20-00297-53.

I would like copies of all current and previous licenses for the Southboro facility issued to Harvard pursuant to Sections 20.106, 20.106(b) and/or 20.302 of 10CFR 20, allowing for the disposal of licensed material. I would also like copies of all amendments to the license that is now in effect, all applications for renewal and all pertinent correspondence.

In addition, I would like copies of all reports on inspections of the Southboro facility by representatives of the Nuclear Regulatory Commission, copies of all notices of violation of NRC regulations sent to Harvard following inspections of the Southboro facility, and all available correspondence relative to said notices of violation.

Using the information I receive from your office, I plan to write an article for The Middlesex News, a newspaper of general circulation based in Framingham, Mass., by which I am employed as a reporter. This article will be of interest and benefit to people who live, work and own property in Southboro and surrounding areas. For that reason, I am requesting a waiver of all fees for copies and postage. However, I am willing to pay up to \$50 for this information. Please bill me and send any correspondence to me at the above address. If you have any questions, I can be contacted in the News Marlboro Bureau, (617) 485-9152.

Thank you very much for your help.

Sincerely,

Linda M. Burke
