Gentlemen:

Subject: Inspection 70-820/80-14

This refers to your letter dated February 6, 1981, in response to our letter dated January 14, 1981.

We are forwarding your response to our Headquarters offices for their evaluation of the seven reasons you presented for considering the slightly irradiated uranium scrap which you received and processed after July 16, 1976, to have been unirradiated material. We will inform you of the results of this evaluation as soon as it becomes available.

Your cooperation with us is appreciated.

Sincerely,

Boyce H. Grier  
Director
