Dear Mr. Salmon:

Subject: Inspection 50-333/92-25

This letter refers to the physical security inspection conducted by Mr. E. B. King of this office on December 7-10, 1992, of activities at the James A. FitzPatrick Nuclear Power Plant, authorized by NRC License No. DPR-59 and to the discussions of our findings held with yourself and other members of your staff by Mr. King at the conclusion of the inspection.

Areas examined during the inspection are important to public health and safety and are described in the enclosed NRC Region I Inspection Report. Within these areas, the inspection consisted of selective examinations of programs and plans, procedures and representative records, interviews with personnel and observations of security program activities by the inspector.

We found that your physical security program was directed towards the protection of public health and safety. Management support for the program was evident through the implementation of continuing program enhancements to increase its effectiveness. Within the scope of this inspection, no safety concerns or violations were observed.
