

June 26, 1969

Commanding General  
U. S. Army, Alaska  
Attention: ARAGT-C  
APO Seattle, Washington 98749

Attention: Commanding Officer  
USARL Radioactive Material Disposal Facility  
Headquarters, USARL Support Command  
Fort Richardson, Alaska

Subject: INSPECTION OF AEC LICENSE NO. 50-10023-1

Dear Sir:

Region V, Division of Compliance, U. S. Atomic Energy Commission, is responsible for conducting radiological health and safety inspections of AEC licensees in the western states. These inspections are made to assure that AEC licensed activities are performed in a safe manner and in accordance with license conditions and AEC regulations. These inspections include an examination of equipment and facilities, a review of pertinent records, discussions with personnel and, in some cases, observation of actual use of radioactive materials.

This is to inform you that I will be in your area making inspections during the period July 14-15, 1969. I plan to inspect your activities authorized by the subject license on Monday afternoon, July 14. Unless otherwise instructed, I will contact Major William R. Green, Chief, NBC Division, G-3 when I reach Fort Richardson.

Sincerely,

Original signed by  
R. F. Fish, Jr.

R. F. Fish  
Radiation Specialist

cc: Maj. W. R. Green  
Chief, NBC Div., G-3
