INSPECTOR'S EVALUATION AS PEP MM900/15
DEPT. OF THE ARMY - HEADQUARTERS, U. S. ARMY, ALASKA
LICENSE NO. 50-10023-1

The inspection revealed that the licensee possessed no radioactive materials at the time of the inspection, all waste having been disposed by transfer prior to that date. The individual responsible for the operations of the waste disposal facility and their superior officers have recommended to higher headquarters that this licensed activity be terminated, however, the licensee's representatives at the time of the inspection had no knowledge concerning possible disposition of this request by higher headquarters.

On the basis of a review of records and discussions with the licensee's representatives it is the inspector's opinion that the licensee's activities do not create a threat to the health and safety of the licensee's employees or the general public.
