Please - let's get those  
Nuclear plants going! Do  
what you can to let our  
private Public Service Co.  
finish their plant. The  
Federal (not the present administration)  
govt and our clown, Laffer, have  
put every obstacle in their way.  
This Company seems to be falling  
fast hate. Give me lots of  
propaganda come to our State  
and now keeps insisting that  
we P.S.G. B.N.H. get out of it!

its share in this plant that they  
have built or are trying to build.  
He has let the so called clam-  
shell Alliance" come in here and  
destroy their property.

I wish you would find out who  
this crowd (The clamshell) really is.  
Most of them do not even come  
from N. H. but from everywhere else  
and they seem to have plenty of  
money. They appear to do not work  
just March in to N. H. and not  
where are they getting all their  
money? This is a looking into.

Yours Truly  
Mrs. Gertrude Bridgeage.
