ATTN: Mr. R. H. Winget
Radiation Safety Officer
Route 84, P. O. Box 331
Fulton, IL 61252

License No. 12-15025-01

03008448

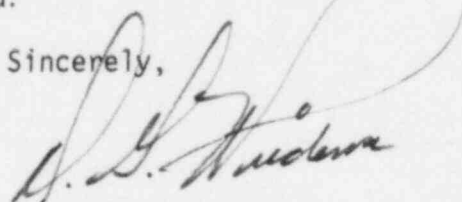

Gentlemen:

Thank you for your letter dated May 30, 1985, informing us of the steps you have taken to correct the noncompliance identified in our letter dated May 21, 1985. We have no further questions regarding your response to Items 1, 3, 4, and 7.

As a result of our telephone conversation with you on June 6, 1985, it is our understanding that you may file for an amendment to your license concerning Items 2 and 6. If you decide not to request an exemption to the regulations and your license conditions, please notify this office immediately. However, it should be understood that no activity is in accord with NRC regulatory requirements unless and until it is specifically authorized in an NRC license. Steps should be taken to ensure that NRC-licensed materials are hereafter possessed and used only as authorized by your license. We will examine this matter during a future inspection.

Your cooperation with us is appreciated.

Sincerely,

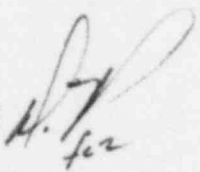

D. G. Wiedeman, Chief
Nuclear Materials Safety
