Gentlemen:

Enclosed is a license application from Upsher Laboratories, 20 E. 14th St.,
Kansas City, Missouri 64142.

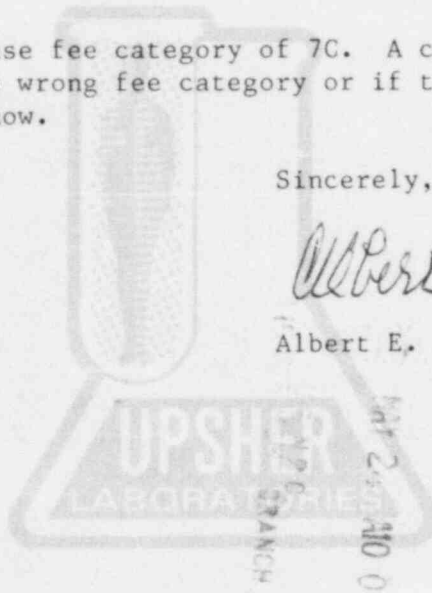

Upsher Labs is a clinical lab which in the past has operated under a general
license for in vitro use of radioactive materials. A review of our uses
indicates that we may be exceeding the possession limits allowed under the
general license in the near. For that reason, we request that we be issued a
specific license for doing in vitro procedures. Information related to this
request is attached.

We have indicated a license fee category of 7C. A check for \$580.00 is
enclosed. If this is the wrong fee category or if the fee amount is not
correct, please let us know.

Sincerely,

Albert E. Upsher
