Dear Miss LiLuvio:

This is in response to your letter dated January 21, 1981 to President Reagan regarding the McGuire Nuclear Station.

The McGuire Nuclear Station Unit 1 was issued a Fuel Load and Zero Power License in January 1981. The next phase in the startup program for full power operation is low power testing and power ascension. The earliest licensee (Duke Power Company) schedule for this activity is July 1981 predicated on all required events including testing to occur without delay. Our review supporting a full power operating license was completed in mid April, 1981.

As you may be aware, the public hearing before the Atomic Safety and Licensing Board (ASLB) was reopened by the ASLB in response to a motion filed by the intervenor on the basis of new information resulting from the TMI accident. The hearing was reopened in February 1981 and concluded in March. A decision by the ASLB is scheduled for September 1981. This will be followed by consideration of the Atomic Safety and Licensing Appeal Board. Under present rules, the full Commission would then perform its own review. A full power operating license is scheduled to be issued for McGuire Unit 1 in December 1981. The NRC is taking steps in hopes of improving these dates.

The McGuire Nuclear Station, Unit 2 is projected to receive an operating license in 1982. The above process is not expected to impact the issuance of the Unit 2 operating license.

Thank you for your interest in the licensing of the McGuire facility.

Sincerely,

Darrell G. Eisenhut, Director  
Division of Licensing

WAXHAW, N.C. 28173

Office of the President  
Pennsylvania Ave.  
Washington, D.C.

Dear Mr. President,

I like what you have said so far  
to the country. I hope you really  
are sincere.

I would like to make a few  
comments and ask a few questions  
about my areas of concern.

— It's good that the hostages are  
home but what about the woman  
reporter who has been a prisoner almost  
as long as the "52". There's no  
mention of her. Is there hope  
to get her home, too? Has she been  
forgotten?

— You say you are for nuclear  
power. Actions are stronger than  
words. How about some action on

getting the McGuire nuclear plant  
fueled? (Charlotte, N.C.) The  
plant has been waiting for a  
year for a fueling permit.  
Date power cannot continue  
their full building program until  
the McGuire Plant gets going.  
As a result my husband is  
out of a job locally — And has  
been traveling to different nuclear  
plants across the country for the  
past year.

(Note — this letter is being written  
1000 miles from home. If you  
get the McGuire Plant fueled,  
I'll wave Reagan banners all  
over North Carolina.)

— I would like your comments on <sup>Blue</sup> Governor Hunt's New Generation Bill (<sup>Policy</sup> ~~Book~~)  
and Child Health Plan (Policy Book).  
I have <sup>heard</sup> of creeping socialism but I am  
very alarmed at this leaping communism.  
Parents are better at raising children than

— What are your views on  
the Dept. of Education? Does  
the Dept. of Education have  
anything to do with the Humanism  
being taught in the schools?  
Are you aware of Humanism  
(Atheism) in our textbooks?  
Do you know about values  
clarification in the classroom?  
Values Clarification teaches there  
is no right, no wrong — only what's  
right for you at the time.  
Our children's textbooks are teaching  
"When is it right to lie?"  
"When is it right to steal?"  
"When is it right to prostitute?"  
This is a part of Humanism in  
our schools — but that's only the  
tip of the iceberg.

Humanism is going to tear our  
schools apart and destroy the moral  
fiber of our youth. Please investigate.

- + Do you intend to continue  
the use of my tax dollar to  
pay for abortion-murders?
- I oppose the ERA. To say  
it will help women is ridiculous.
  - I hope you discontinue  
the Social security system as  
it now stands. I can put  
my money in a private insurance  
Co. and retire wealthy!

Thank you.

Sincerely,  
Sharon DiLuvio

March 18, 1981

Dear Miss DiLuvio:

You were good to take the time to share your views and suggestions with President Reagan. The President has committed his policy staffs to building an era of national renewal, and he is seeking the guidance of many concerned citizens as his Administration moves forward.

President Reagan fully intends to honor his campaign commitments and, as he made clear in his Inaugural Address, he is counting on each of us to help. I am taking the liberty of forwarding your message to the appropriate Government officials in order that they may address your important questions.

With the President's best wishes,

Sincerely,

Anne Higgins  
Director of Correspondence
