In the Matter of Metropolitan Edison Company, Three Mile Island
Nuclear Generating Plant, Unit 1
Docket 50-259

Objection to Supplement II, p. 12 (IV. Compliance with
NUREG-0694 Requirements (Management Area))

Intervenor made known to the Board at April 28 session of the hearing of ^{her} objection to the above noted page in Supplement II and qu^{er}ied the Board relative to objections of the Union of Concerned Scientists. The Board suggested that this intervenor contact counsel for UCS to determine their position. Intervenor was not able to do that until today and finds that UCS has made a request of the Board to cross-question in this area. Intervenor is not able to determine at this time if all her concerns are covered by those of UCS. Intervenor is willing to consolidate those concerns with those of UCS.

Respectfully submitted,

Marjorie M. Aamodt
