UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of)
TEXAS UTILITIES GENERATING COMPANY, et al.)
(Comanche Peak Steam Electric Station,)
Units 1 and 2)

Docket Nos. 50-445
50-446

MOTION TO COMPEL APPLICANTS TO HOLD THE DESIGN AUDIT
OF COMANCHE PEAK BY THE STRUCTURAL ENGINEERING BRANCH
OF THE NRC IN REASONABLE PROXIMITY TO COMANCHE PEAK

Comes now CFUR and files this Motion to Compel Applicants to Hold the Design Audit of Comanche Peak by the Structural Engineering Branch of the NRC in Reasonable Proximity to Comanche Peak in response to the refusal of the Applicants to hold that Audit at or in the vicinity of the site where CFUR and other interested members of the public can attend.

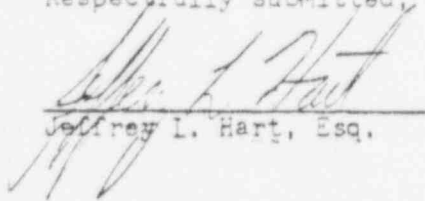

On April 23, 1981, the NRC Staff requested that the Applicants select a site for the Design Audit of Comanche Peak by the Structural Engineering Branch of the NRC "which will not preclude members of the public from attending." Clearly, the members of the public who would attend are those who live in the area surrounding CPSES.

The Applicants selected New York City as the site of the Design Audit. Should the Audit be held in New York, members of the public who reside in the area affected by CPSES will be precluded from attending. The cost of traveling to and staying in New York for a week is prohibitive. This factor is well known to the Applicants.

CFUR is highly interested in Part I - General Analysis of the Audit since it covers several areas which are relevant to CFUR's upcoming participation in the licensing hearing of CPSES. By holding the Audit in New York, CFUR will be precluded from obtaining the data presented and the substance of the conversations which occur during the Audit. Although requested to hold the Audit in the Dallas/Fort Worth area on May 8, 1981, the Applicants refused to consider doing so.

CFUR prays that the Board order the Applicants to hold the upcoming Structural Design Audit in the Dallas/Fort Worth area.

Respectfully submitted,

Jeffrey L. Hart, Esq.
