Dear Mr. Chairman:

As chair of the Working Group on Nuclear Explosives Control Policy, I am pleased to transmit to you the attached letter from participants in the Working Group. The letter expresses our deep concern over recent indications that the NRC may not pass its research reactor conversion rule as originally proposed.

Please feel free to send your response to me, which I will then forward to the other signers, or to correspond with them directly. An address list is attached.

Thank you for your consideration of the urgent matter addressed in our letter.

Sincerely,
