TET, Inc.
ATTN: Mr. David C. Wiggins
General Manager
Post Office Drawer 91537
Mobile, AL 36691

Gentlemen:

SUBJECT: RECOGNITION OF RECIPROCITY

This acknowledges receipt of your Report of Proposed Activities in Non-Agreement States (NRC Form 241) (dated December 4, 1992) and receipt of your \$640 reciprocity recognition fee (check dated November 30, 1992) as required by 10 CFR 150.20(b) and 10 CFR 170.31 (Category 16-Reciprocity).

Your Alabama State License No. 147 is recognized as valid for use in Non-Agreement States for up to 180 days in a calendar year. In calendar year 1993, a new NRC Form 241 and reciprocity fee will be required. This notification must be made at least 3 days in advance of beginning licensed activities. You must notify us concerning any revisions to the activities (i.e., client, location, dates), by letter, containing the same information as reported in Sections 1-7 of NRC Form 241. The certification provided in Section 8 of the first calendar year submission NRC Form 241 will continue to apply to all the activities. There is no additional fee required beyond the first submittal of the calendar year.

You must also comply with our 10 CFR Part 34 requirements concerning radiography equipment, alarming ratemeters, and radiographers and assistant radiographers; NRC rules may differ from Alabama rules. You must also obtain an NRC-approved Quality Assurance Plan for shipping packages. Information on applying for the Quality Assurance Plan is enclosed (Regulatory Guide 7.10). You must also register with NRC as a secondary user of a package for which NRC has issued a specific license, certificate of compliance, or other approval under 10 CFR Part 71. Copies of portions of Title 10 Code of Federal Regulations are listed as Enclosures 1-8.

The NRC may inspect your activities in the field. If an inspection is performed, you will be billed. The fee charged will be the same as that charged to a similar NRC licensee. We will notify the appropriate State concerning your activities.
