

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555

January 4, 1993

Ms. Marina Anttila, President
East Side Democratic Club
of Multnomah County
3415 N.E. 22nd Street
Portland, Oregon 97212

Dear Ms. Anttila:

I am responding to your letter of December 1, 1992, to the Commissioners of the U.S. Nuclear Regulatory Commission (NRC). In your letter you requested "a public hearing" prior to the restart of Trojan and expressed concerns about the status of the steam generators at the Trojan Nuclear Plant.

As you may know, the staff held a meeting at the Trojan site in Rainier, Oregon, on December 1, 1992, to discuss the cause and repair of the steam generator primary-to-secondary tube leak that occurred on November 9, 1992. This meeting was held to provide an opportunity for Portland General Electric (PGE) to inform the NRC staff on the issues raised in the Confirmatory Action Letter, dated November 13, 1992. The meeting was attended by NRC headquarters personnel, NRC Region V personnel, PGE, and members of the media and general public. The meeting also included a discussion of the proposed emergency technical specification change that was prepared by the licensee.

The licensee recently withdrew its request for the emergency technical specification change and is conducting augmented steam generator tube inspections. It is our understanding that the licensee is evaluating the steam generator tube inspection data and they are considering a range of possible actions that depend on the result of the data evaluation. The NRC staff is following the inspection process and any subsequent request for technical specification amendment closely.

I would advise you to consult Title 10, Code of Federal Regulations (10 CFR), for an understanding of your rights and responsibilities regarding a hearing request; specifically refer to 10 CFR 50.91, and 10 CFR 2.714. In general, you may file a petition for leave to intervene and request a hearing during the notice period on any licensing action proposed by the licensee, or you

Resolution Adopted By East Side Democratic Club on 12/1/92

Whereas controversial NRC reports have been revealed concerning safety issues at the Trojan Nuclear Power Plant and serious questions have arisen relating to the possibility of nuclear accidents; and

Whereas the facility is closed again for repairs; and

Whereas these matters involving public safety demand further unbiased investigation,

Therefore, Be It Resolved by the East Side Democratic Club of Multnomah County as follows:

That a request be addressed to the authorities involved that the plant remain closed until a public adjudicatory hearing be held involving the initiators of the NRC Reports, knowledgeable nuclear scientists, PGE and DOE representatives and concerned citizens.

This resolution was adopted by the membership of this organization at its regularly scheduled meeting of December 1, 1992.

Marina Anttila, President
Portland, Oregon
