SUBJECT: Virgil C. Summer Nuclear Station
Docket No. 50/395/C
Operating License No. NPF-12
Request for an Amendment to the
Operator Requalification Program

Dear Dr. Grace:

Under the provisions of 10CFR50.54 (i-1), South Carolina Electric and Gas Company (SCE&G) requests an amendment to the Virgil C. Summer Nuclear Station Operator Requalification Program. The amendment would allow up to three (3) licensed individuals to be excused from taking the annual examination if they are assigned duties involving preparation and grading of the examination.

In the Final Safety Analysis Report (FSAR), Section 13.2.2.5-1, SCE&G committed to administering annual written examinations to Reactor Operators and Senior Reactor Operators. This commitment did not, however, make provisions for excusing those staff members who develop and grade the examination from taking the examination. In order to correct this administrative inconsistency SCE&G proposes adding the following sentence to Paragraph 1 of FSAR Section 13.2.2.5-1:

"A maximum of three (3) licensed individuals may be excused from taking the annual examination if they are assigned duties involving preparation and grading of the examination."
